Senior Back End Developer

Java Developer | Microservices Architecture | Performance Tuning and Troubleshooting

Experienced Systems Engineer with over 10 years of hands-on experience in Back-End Web Development, software architecture, and leading technical teams. Specializing in Java, Spring Boot, Node.js, and Microservices architectures. Skilled in developing scalable, cloud-native applications with Docker, Kubernetes, and REST APIs. Proficient in managing relational and non-relational databases such as MySQL and SQL Server. Strong collaborator with a passion for clean code, developer mentorship, and modern development practices..

PROFESSIONAL EXPERIENCE

NSSA S.A. – Argentina (Remote)

Back-End Developer | Technical Leader

04/2022 – present

Led technical development of Argentina's national SUBE recharge system, managing backend infrastructure and team workflows.

- Spearheaded migration of legacy components to **Java Spring Boot microservices**, improving system scalability and maintainability.
- Improved development onboarding by creating documentation and mentorship sessions, reducing ramp-up time by **40%**.
- Delivered biweekly production releases under **Scrum**, ensuring consistent delivery of key business features.

NeuralSoft S.A. – Argentina (hybrid)

Software Developer & Analyst

06/2019 – 03/2022

Maintained and extended a proprietary ERP system using Java and PostgreSQL, focusing on performance and rapid implementation.

- Enhanced and supported the internal ERP system using **Java, REST APIs, and PostgreSQL**.
- Led implementation, documentation, and training in-house software solutions.
- Employed **Git** for version control and team collaboration.

Municipality of Santa Fe. – Argentina

Software Developer & Analyst

04/2018 – 05/2019

- Modernized municipal systems through RESTful services and UI enhancements using Java, Bootstrap, and SOAP.
- Integrated and maintained tax and cadastral systems for government operations.
- Practiced Agile methodologies and code versioning using **Git**.

CARSA S.A. – ACERCAR A.C.E. – Argentina

Back-End Developer & Analyst

04/2015 – 05/2018

- Delivered and maintained critical enterprise solutions such as inventory systems, online billing, and MRP tools.
- Developed back-end services using **Java, Spring Boot, Node.js, and REST APIs**.
- Worked on front-end features with **Angular 2** and **TypeScript**.
- Managed integrations with SQL Server, MySQL, and external APIs.

Ministry of Government and State Reform – Argentina

Technical Support & Developer

02/2014 – 01/2015

- Supported and maintained applications for judicial reform and healthcare services.
- Used **Java, Swing, REST/SOAP APIs, and Eclipse IDE**.

PRECISION S.R.L. – Argentina

iOS Game Developer & Software Engineer

03/2011 – 01/2014

- Built and released several mobile games using **Unity 3D** and **C#**.

- Developed a production management system using **Silverlight**, **MVVM**, and **Entity Framework**.

PROFESSIONAL SKILLS

Back-End Web Development | Java | Git | REST APIs | SQL Server | Microservices | Spring Boot | Kubernetes
Problem Solving | Communication | Adaptability | Time Management | Ownership & Accountability

LANGUAGES

English (B2)

| Spanish (native)

EDUCATION

Bachelor's degree in Systems Engineering– Santa Fe, Santa Fe, Argentina

National Technological University | 2003 - 2018

STRENGTHS & SOFT SKILLS

- Expertise in Back-End Web Development with scalable microservice design.
- Strong experience with Git, Docker, and SQL-based databases.
- Self-motivated and team-oriented leader with excellent communication skills.
- Effective in mentoring, cross-functional collaboration, and Agile team environments.
